Attorney Docket No.: 100375.54376US

Date: May 16, 2003

IN THE CLAIMS

Kindly delete non-elected claims 1-27 and 35-77.

Kindly delete claims 28, 29, 31, 33 and 34.

Please amend claim 28 as set forth below and add additional claims 78 - 87 dependent thereon.

- 30. (Original) The method according to claim 28, wherein a desired DNA is inserted, removed or modified in said differentiated mammalian cell or cell nucleus, thereby resulting in the production of a genetically altered NT unit.
- 32. (Original) The method of claim 28, wherein the resultant CICM cell line is induced to differentiate.
 - 78. (New) A method of producing a CICM cell line, comprising:
- (i) inserting a desired mammalian somatic cell or cell nucleus into an
 enucleated mammalian oocyte of the same species as the somatic cell or cell
 nucleus, under conditions suitable for the formation of a nuclear transfer (NT) unit;
 - (ii) activating the resultant nuclear transfer unit;
- (iii) culturing said activated nuclear transfer unite until greater than the 2-cell developmental state and no greater than the 400-cell developmental stage; and

Attorney Docket No.: 100375.54376US

Date: May 16, 2003

(iv) culturing cells obtained from said cultured NT united to obtain a CICM cell line which is cultured under conditions that maintain said CICM cell line in an undifferentiated state.

- 79. (New) The method of claim 78 wherein said culturing step (iv) comprises culturing said cells on a feeder layer.
- 80. (New) The method of claim 79 wherein said feeder layer is a fibroblast feeder layer.
 - 81. (New) The method of claim 78 wherein said somatic cell is transgenic.
- $82. \hspace{0.5cm} \hbox{(New)} \hspace{0.1cm} \hbox{The method of claim 1 wherein said somatic cell or nucleus is human.}$
- $83. \hspace{0.5cm} \hbox{(New)} \hspace{0.5cm} \hbox{The method of claim 82 wherein said somatic cell or nucleus is transgenic.}$
- 84. (New) A method according to claim 83 wherein said CICM cell line is a human CICM cell line.
 - 85. (New) The method of claim 84 which results in hematopietic cells.
 - 86. (New) The method of claim 85 which results in neural cells.
 - 87. (New) The method of claim 86 wherein said cell line is transgenic.
